### GENERAL INFORMATION

This product is formulated to prevent the growth of both smooth and hairy crabgrass in either a newly seeded or well established lawn. It will also aid in controlling certain other annual weed grasses such as Foxtail and Barnyard grass. This product will not damage most of the commonly used lawn grasses even if applied at time of seeding.

### IMPORTANT:

Use only on bluegrasses, fescue, reedtop, smooth brome, perennial ryegrass, orchardgrass, and the following strains of bentgrasses: Pennicross, Seaside, Astoria, Nimbus, C-1, C-7, and C-19. Do not use on other bentgrass strains nor on Bermuda grasses, as injury to turf may result. Treatment will not control annual bluegrass (Poa annua), clover or most broadleaf weeds.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns.

Apply to the lawn during the spring of the year prior to the germination of crabgrass. Best results are obtained when application is made approximately 2-3 weeks before crabgrass appears. It is, therefore, suggested that application be avoided during February or early March.

### NEWLY SEEDDED LAWNS

1. Apply contents evenly over 4,000 square feet immediately after seeding (2 1/2 lbs. per 1,000 sq. ft.). For best results repeat applications in 4 weeks.
2. Provide sufficient moisture to insure germination of new grass seed.

### ESTABLISHED, OVERSEEDDED OR PATCHED LAWNS

1. Apply contents evenly over 2,000 square feet immediately after seeding (5 lbs. per 1,000 sq. ft.).
2. For best results, the lawn should be watered thoroughly within 3 days after application.

3. Before application, lawn should be raked to remove extraneous material and insure uniform application. In order to obtain expected results, this product should be evenly applied with no skips or misses.

**NOTE - DO NOT RAKE LAWN OR DISTURB SOIL SURFACE** after application. Application of a turf food is recommended in the Summer and Fall.

### RESTRICTIONS

Do not contaminate water used for irrigation or domestic purposes. Do not contaminate feed, foodstuff, or ponds. Do not store near seed, other fertilizers, insecticides, or fungicides. Do not apply to vegetable crops. **DO NOT HAND SPREAD.**
